

Print a copy of this memory card, cut it out and place it where you will see it every day.

Say the verse out loud. Don't forget to include the reference so you can remember where to find it later from memory. (The letters found at the end of the verse refer to the Bible translation.)

Here are a few more tips for reading Scripture.

#1 Pray first. Ask God to help you understand what you are reading.

#2 Read it slowly. This is not something to check off your list. Your goal is to let it sink in!

#3 Read it aloud with expression as if you were reading to a class of students. The meaning will just POP out at you!
